

## Parent Participation

The success of the ACE educational program is based on parent participation.

- In order to enroll a child at All City Elementary, parents must agree to contribute a half day per week in the classroom for each child enrolled. It is the All City belief that children benefit most when their parents are actively involved in their classroom.
- Transportation to and from school is the responsibility of the parents.
- Parent Orientation occurs in the fall. New families are oriented upon enrollment.

## Enrollment Process

Call the All City Elementary school office at 367-6120 to request an Indication of Interest form. Information about the ACE program will be sent to you when openings occur at All City Elementary.

When openings occur, students are accepted on the following basis:

1. Enrollment of siblings at the school
2. Date on Indication of Interest form

**We invite you to contact the All City Elementary principal for more information.

## At a Glance...

All City Elementary (K-5) is a public school offering a choice for parents to be actively involved in their children's education.

All City Elementary (ACE) has been part of the Sioux Falls Public School system since 1974. It is tuition-free. ACE consists of one section of each grade, which fosters a strong sense of community among parents, staff and students.

Strong parental involvement enables the instructional program to meet the needs of the total child through active, experiential, and collaborative learning.

There are opportunities for children to participate in activities with children of other ages through:

- Interclass "family" activities
- Monthly "Choice Day" enrichment activities organized by parents.
- 5th Grade Buddies for kindergartners
- Peer Conflict Management
- Optional Wednesday Enrichment

ACE students come from all parts of Sioux Falls and represent diverse backgrounds. Due to the high degree of parent commitment, the close home-school communication, and the excellent instructional program, ACE students are consistently successful academically. Students go on to do very well in middle school, high school, and beyond.

## The ACE Belief Statement

The ACE Belief Statement is based on the Circle of Courage philosophy. We believe in nurturing the whole child by developing:

## The ACE Mission Statement

All City Elementary is dedicated to creating a community of learners: children, teachers, parents, and other adults working together to maximize individual success in a changing world.
